

## **NUCLEAR ENERGY RESEARCH ADVISORY COMMITTEE MEMBERS**

|                             |   |
|-----------------------------|---|
| William F. Martin, Chairman | Washington Policy and Analysis                          |
| John Ahearne, Vice Chairman | Sigma Xi and Duke University                            |
| Thomas B. Cochran           | National Resources Defense Council                      |
| Joseph R. Comfort           | Arizona State University                                |
| Michael L. Corradini        | University of Wisconsin                                 |
| Jose Luis M. Cortez         | University of Texas                                     |
| Allen G. Croff              | Oak Ridge National Laboratory (retired)                 |
| Marvin S. Fertel            | Nuclear Energy Institute                                |
| Steve Fetter                | University of Maryland                                  |
| Beverly K. Hartline         | Formerly of Argonne National Laboratory                 |
| Silvia S. Jurrison          | University of Missouri                                  |
| Andrew C. Klein             | Oregon State University                                 |
| Dale E. Klein               | Department of Defense                                   |
| Robert L. Long              | Nuclear Stewardship, LLC                                |
| Corbin McNeill              | Exelon Corporation (retired)                            |
| Richard A. Meserve          | Carnegie Institution of Washington                      |
| Warren F. Miller            | Los Alamos National Laboratory (retired)                |
| Sekazi K. Mttingwa          | Harvard University                                      |
| Jerry Paul                  | Florida House of Representatives                        |
| Harold B. Ray               | Southern California Edison                              |
| Richard Reba                | Georgetown University                                   |
| Joy Lynn Rempe              | Idaho National Engineering and Environmental Laboratory |
| Michael B. Sellman          | Nuclear Management Corporation                          |
| Allen L. Sessoms            | Delaware State University                               |
| Daniel C. Sullivan          | National Cancer Institute                               |
| Charles E. Till             | Argonne National Laboratory (retired)                   |
| Neil E. Todreas             | Massachusetts Institute of Technology                   |
