

Combined Construction and Operating License (COL)

Summary: Eighteen COL applications have been submitted, thirteen of which remain under active NRC review. NRC suspended review of five COL applications due to changes in technology or economic considerations. A total of nineteen power companies, of which one remains unidentified, intend to submit 25 license applications for 36 units. The Reference COL (R-COL) application has been submitted for all five reactor designs; the 18 subsequent COLs (S-COLs) will incorporate the corresponding R-COL application by reference, noting any site-specific departures. No COLs have been issued to date.

4 Safety Review Phases

R-COL: *Ph 1* Issue RAIs *Ph 2* SER w/ Open Items *Ph 3* ACRS Review *Ph 4* Advanced SER/ No OI *Ph 5* ACRS Review *Ph 6* Final SER
S-COL: *Ph A* Issue RAIs and supplemental RAIs *Ph B* Advanced SER/ No OI *Ph C* ACRS Review *Ph D* Final SER

5 Environmental Review Phases: *Ph 1* Environmental Scoping Report *Ph 2* Draft EIS *Ph 3* Public comment *Ph 4* Final EIS

Reactor Design Certification (DC)

Summary: Two reactor designs are certified; three new designs and one amendment are under NRC review.

- GE ABWR – Certified in 1997 (10CFR52 App A).
- Westinghouse AP1000 – Certified 2005 (10CFR52 App D). A modification to the certified design was docketed January 18, 2008, and is currently under NRC review with rulemaking currently scheduled for August 2011.
- GE ESBWR – Under NRC certification review, application docketed December 2005; rulemaking currently scheduled for September 2011.
- AREVA US-EPR – Submitted December 12, 2007, and docketed February 25, 2008; rulemaking currently scheduled for February 2012.

- Mitsubishi Heavy Industries US-APWR – Submitted December 31, 2007, and docketed February 29, 2008; rulemaking expected 2012.

Early Site Permits (ESP)

Summary: Four ESPs issued:

- The following ESPs have been issued: Exelon – Clinton (IL), 3/15/07; Entergy – Grand Gulf (MS), 4/5/07; Dominion – North Anna (VA), 11/ 27/07; Southern – Vogtle site (GA), 08/26/09.
- Duke notified NRC of two possible ESP applications at Oconee County (SC) and/or Davie County (NC); no dates provided.
- Exelon is preparing an ESP for its Victoria County site, for which it had originally submitted a COL.

New Nuclear Plant Orders

Summary: Four plant construction contracts have been initiated; nine power companies have ordered large component forgings from three reactor vendors for potential nuclear plants; one vendor ordered other large equipment; two vendors are building large fabrication facilities.

Long-Lead Equipment Orders: Large forging orders initiated by AREVA, GE-Hitachi, Toshiba and Westinghouse; Westinghouse has also ordered reactor coolant pumps and containment vessels.

- Progress, SCE&G, and Southern have contracted with Westinghouse for long-lead component forgings.
- Dominion, Entergy, and Exelon have contracted with GE-Hitachi for long-lead component forgings.
- AmerenUE and UniStar have contracted with AREVA for long-lead component forgings.
- NRG Energy signed an agreement with Toshiba for long-lead component forgings.
- Japan Steel Works currently only ultra-large forging vendor worldwide – capacity limited; AREVA, Lehigh Heavy Forge, BWXT and Russia's Uralmash-Izhora Group (OMZ) reportedly developing large forging capabilities.
- Areva and Northrop Grumman plan to build a facility in Newport News, VA to manufacture heavy components for the EPR.
- Shaw and Westinghouse plan to build a facility near Lake Charles, LA to fabricate structural and equipment modules for the AP1000.

Plant Construction Contracts: Engineering, Procurement and Construction (EPC) contracts have been signed for four plants.

- Progress Energy with Westinghouse and Shaw Group for two AP1000s at Levy County.
- Southern Nuclear with Westinghouse and Shaw Group for two AP1000s at Vogtle. Start of early site construction is delayed 6 months pending resolution of technical issue pertaining to soil.
- SCE&G and Santee Cooper with Westinghouse for two AP1000s at V.C. Summer.
- STPNOC with Toshiba for two ABWRs at South Texas Project.
- AREVA with Bechtel for one EPR at Calvert Cliffs.

Spent Fuel Disposal Contracts: Standard DOE contract for disposal of spent fuel and radioactive waste available.

- Contracts under 10 CFR Part 961 available October 31, 2008.
- Two COL applicants, Duke Energy and Southern Nuclear Co., publicly announced signing of disposal contracts with DOE.

New Plant Construction, Operation, Deferral

Summary: TVA proceeding towards completion of Watts Bar Unit 2 and Bellefonte Units 1 and 2.

New Nuclear Plants under Construction: TVA resumed construction-related activities at two mothballed sites:

- Watts Bar 2, near Spring City, TN, resumed at a total cost of \$2.5 billion with an estimated completion date of 2013.
- Construction permits have been reinstated for Bellefonte Units 1 and 2 near Scottsboro, AL; no work underway.

New Nuclear Plant Begin Operation: None.

Deferred: None.

Federal Financial Incentives

Summary: EPC Act 2005 incentives are at various stages of development: two rules issued and one notice published.

Standby Support: Rule issued, no contract issued.

- Final Rulemaking Issued August 2006.
- Published Standard Conditional Agreement September 2007.
- DOE released on-line instructions for requesting Conditional Agreement December 2007.
- One Notice of Intent to Request a Conditional Agreement was received in 2008 and a second in February 2009.
- One Notice of Intent received in 2008 has since been withdrawn.

Production Tax Credits: Notice issued.

- Internal Revenue Bulletin 2006-18 published May 2006.
- Treasury/IRS may issue additional guidance on Tax Credits for new nuclear plants; however, a date has not been set.

Nuclear Energy Facility Loan Guarantees: Congress provided DOE with authority to issue \$20.5 billion in guaranteed loans.

- DOE issued solicitations for \$18.5 billion in loan guarantees for new nuclear power facilities and \$2 billion for the "front end" of the nuclear fuel cycle on June 30, 2008.
- DOE has narrowed the power facilities under consideration for loan guarantees to four applicants, with a total of seven reactors.
